ABOUT ECLIPSE

Nature's Gift for Eye Health

Eclipse amniotic membrane tissue, a natural material derived from the placenta, is a remarkable tool in the world of eye care. Packed with healing proteins and growth factors, it acts like a super-powered band-aid, helping your eyes recover from various conditions.

ECLIPSE

AMNION MEMBRANE TISSUE

NATURE'S GIFT FOR EYE HEALTH

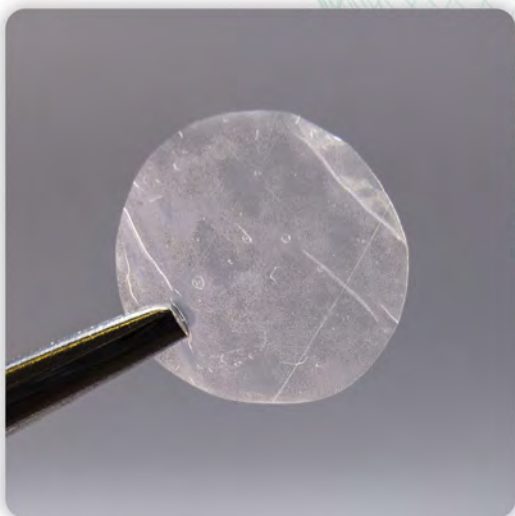

Complicated eye drop regimens requiring multiple classes of eye medication for weeks, perhaps months, can be costly and uncomfortable, providing only minimal improvements in some cases. Eclipse is **ONE TREATMENT** that provides **MULTIPLE BENEFITS** simultaneously, essentially jump-starting the healing process, allowing significant improvements to be made in a relatively short time.

FLEXIBLE AND TAILORED TREATMENT

Your doctor wants your eye to heal and restore its natural state as soon as possible. Eclipse helps with your healing process by introducing anti-inflammatory and growth factors necessary to restore the surface of the eye to its natural state quicker and more effectively than traditional treatments.

THE ECLIPSE ADVANTAGE

- Quicker Healing
- Pain Reduction
- Scarring Reduction
- Inflammation Reduction
- Comfort
- Retains Eye Hydration

WHAT IS ECLIPSE?

Eclipse is a biological graft that has been approved by the FDA for its safety and effectiveness. It's specifically designed to treat various eye surface conditions and disorders, enhancing the healing process for patients.

WHY CHOOSE ECLIPSE?

Because you deserve top-notch treatment. Eclipse is engineered for your comfort and seamless integration with your eye. It's proven to reduce inflammation, foster healing, and improve patient outcomes overall.

HOW DOES ECLIPSE WORK?

Eclipse is an extremely thin, wafer-like biological tissue that can be applied swiftly and easily. Your eye doctor will position Eclipse on your eye and cover it with a soft contact lens to keep the graft secure. In a short period, your eye will naturally absorb Eclipse, aiding your healing process and allowing you to return to your daily activities comfortably.

IS ECLIPSE SAFE?

Absolutely. Eclipse adheres to the strict rules, regulations, and requirements set by the FDA.

WHEN TO REACH OUT TO YOUR DOCTOR

Although adverse reactions in patients are uncommon, if you observe your eye becoming red, swollen, painful, or sensitive to light, it's important to contact your doctor immediately.
